

# ANGGITO RANGKUTI BAGAS MUZAQI

081380716742 | bagasmuzaqi1614@gmail.com | <https://www.linkedin.com/in/anggito-rangkuti-bagas-muzaqi/>

I am a final-year Software Engineering Technology student at IPB University, with a strong passion for full-stack web development, particularly in building Laravel-based information systems. I have proficiency in both front-end technologies (HTML, CSS, JavaScript, Bootstrap) and back-end development using Laravel and MySQL. I am dedicated to creating responsive, user-friendly websites and applications, and I am eager to continue growing my skills in both front-end and back-end technologies.

## Work Experiences

**PT. Amerta Indah Otsuka - Sukabumi** Feb 2026 - Jul 2026  
*fullstack Developer*

- Developed and maintained new features for company web applications using Angular for the front-end and Express.js for the back-end.
- Performed maintenance and bug fixing to ensure application stability and optimal performance.
- Integrated APIs and managed database operations using DBeaver to support application functionality.

**Department of Forest Products IPB University - Bogor** Jul 2025 - Dec 2025  
*Web Developer Intern*

- Designed and developed SISTA DHH, a web-based Seminar and Final Project Information System to digitalize the department's academic administrative workflows.
- Architected a multi-role system (Guest, Student, and Admin) using the Laravel framework to streamline access control and user workflows.
- Built end-to-end registration modules for Kolokium, Seminar, and Final Defense, incorporating document management, automated PDF generation, and Excel export capabilities.
- Developed an admin dashboard and content management system, working closely with department staff to align features with real academic operational needs.

## Education Level

**Institut Pertanian Bogor - Bogor** Aug 2022 - Aug 2026 (Expected)  
*Bachelor of Software Engineering Technology, 3.43/4.00*

## Organisational Experience

**Pekan Seni Budaya - Bogor** Jul 2024 - Oct 2024  
*Visual Communication Design Division*

Pekan Seni Budaya 2024 is an annual event by BEM SV IPB University's Arts and Culture Department, featuring competitions and cultural performances by PERMADA representing Indonesia's diverse cultures. In 2024, the event expanded to include a national-level competition.

- Designed promotional posters for event publication.
- Created Instagram feed content to support social media promotion.
- Designed banners for the event.

**Scholarship for Reach a Dream - Bogor** Jul 2023 - Oct 2023  
*Publication, Documentation, and Design Division*

Scholarship for Reach a Dream is an event organized by the Student Advocacy and Welfare Department of BEM SV IPB University, featuring a seminar on effective essay and CV writing, a National Essay Competition, and a TOEFL test for students.

- Designed promotional materials (posters, banners, social media content, ID cards).
- Managed event documentation, including photo and video coverage.
- Edited and compiled documentation into final reports and after-movie videos.

**TechTalk - Bogor** Mar 2023 - May 2023  
*Finance & Sponsorship Division*

TechTalk is a technology webinar event organized by the Software Engineering Technology study program, aimed at sharing industry insights and knowledge on current tech trends with students.

- Prepared budget plans and drafted sponsorship proposals.
- Identified, approached, and maintained relationships with sponsors.
- Reported fund utilization and sponsorship target achievement.

## Skills, Achievements & Other Experience

- Achievement** 🏆 (2024): Awarded 2nd place in a t-shirt design competition organized by BEM FKG Lambung Mangkurat University.
- Modules Taken** 🎓 (2024): Completed a training program in UI Design, covering Visual Design, Prototyping, and Usability Testing.
